Mountain Weather Forecast

Ground Conditions Supplement

Date: Saturday 26 March Location: Helvellyn summit at 12:30. Full report: Stunning high pressure weather brought the crowds out onto the fells with hundreds of folk enjoying the classic Helvellyn horseshoe via Striding and Swirral Edges. Ground conditions remain largely dry and the fells and paths are almost entirely snow-free with the exception of a few small patches which can be found dotted around north and east-facing corrie rims above roughly 900m. There is also a heightened fire risk so please take extreme care with any BBQs, camping stoves or cigarettes. Despite the current settled and spring-like conditions, it's important to remember we could still get significant snowfall on the fells through to Easter and beyond. Please continue to check the weather forecasts and go prepared with the correct warm & waterproof clothing and a map and compass for navigation. Suncream and plenty of fluids are also recommended for anyone heading out into the fells in the next couple of days. Temperature: plus 11.0 C, Maximum wind speed 3.1mph, Wind chill: plus 11.0 C, Average wind speed: 2.1mph.
